WEAK PROMPT

“Create a tutorial on attendance.”

Scan to access the resource.

STRONG PROMPT

Act as an experienced Tutorial Intervention Coach. Create a 45-minute attendance tutorial for Level 1 FE learners aged 16–18. Include a starter, discussion, scenario and reflection. Use simple language and high engagement.

3-MINUTE PRACTICE

Improve: “Create a lesson on resilience.”

✓ Be specific ✓ Add context ✓ Refine with follow-ups
✓ Apply professional judgement ✓ Check accuracy and suitability

03

Planning a Tutorial Session with Copilot

PROMPT

Act as an experienced tutorial coach. Create a 45-minute session on attendance for Level 1 FE learners, with simple language, active learning and a clear plenary.

COPILOT OUTPUT

01 Title + objectives

02 Starter activity

03 Teaching + discussion

04 Scenario exercise

05 Reflection + plenary

One well-crafted prompt can generate a full tutorial plan

Creating Engaging Activities with Copilot

- Icebreakers + starters
- Discussions + debates
- Scenario role-plays
- Quizzes + polls

TRY THIS PROMPT

Create a 10-minute scenario activity on attendance for Level 1 learners. Give clear roles, instructions and a debrief question.

TIP • State the learner level and give clear instructions.

Adapting Resources for SEND Learners Using Copilot

DYSLEXIA

Simplify language • larger text • clear headings

ADHD

Short chunks • movement breaks • visible timings

AUTISM

Literal language • predictable structure • clear sequence

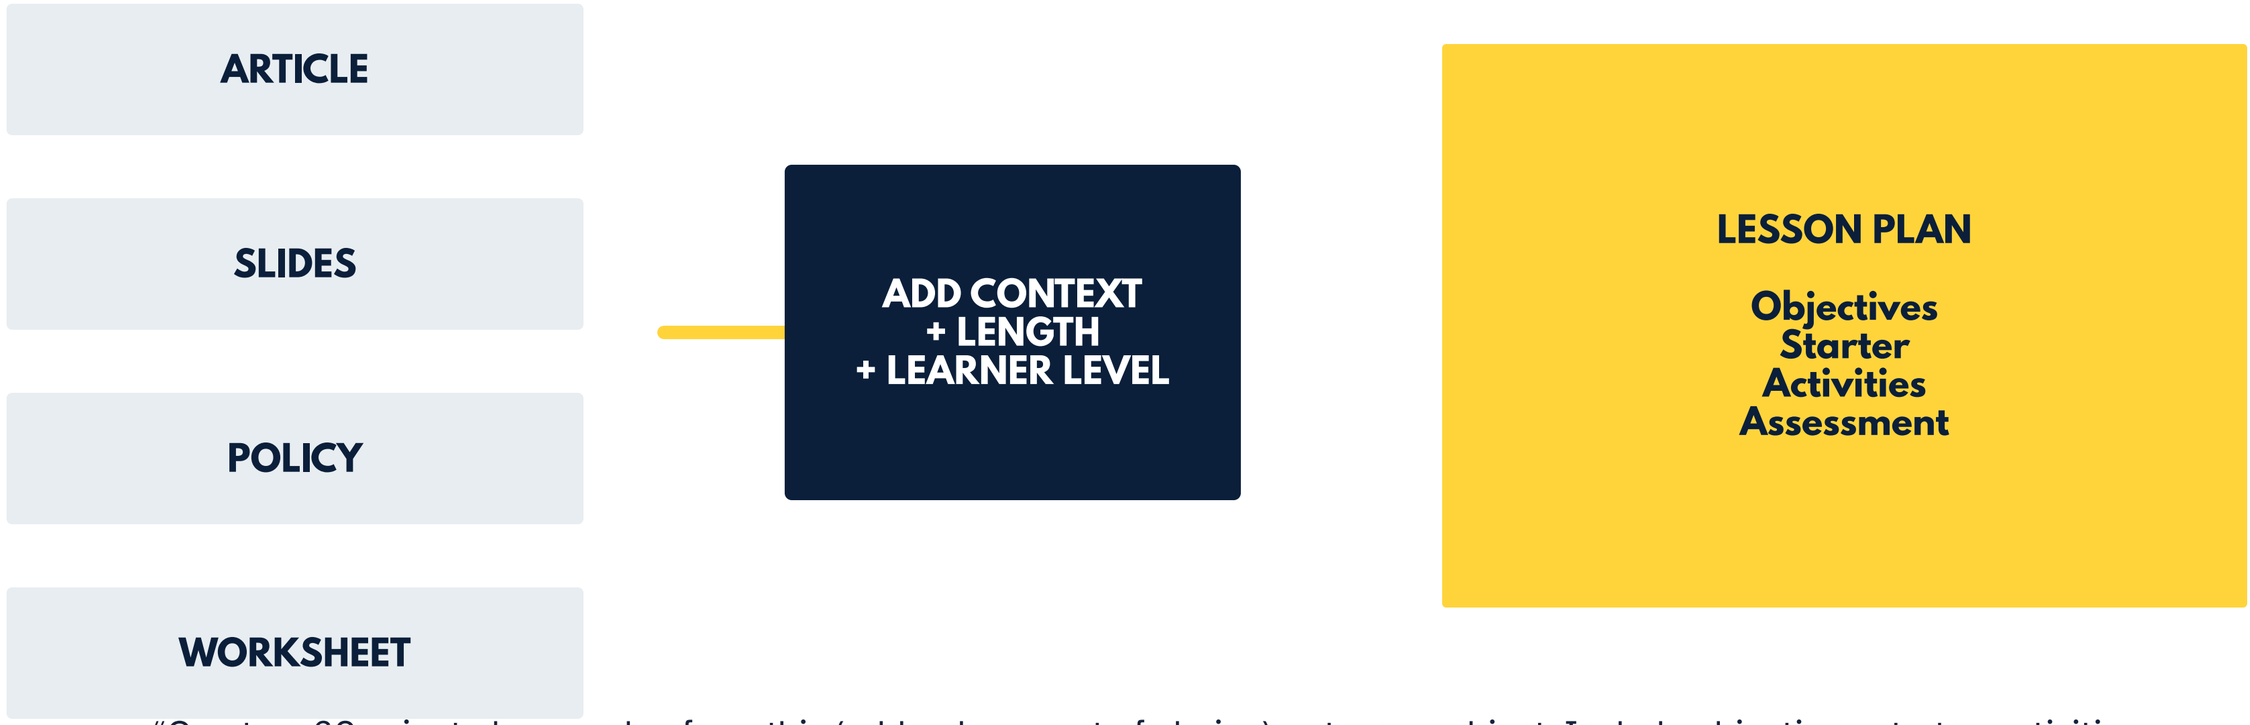

EAL

Vocabulary glossary • visual support • scaffolded tasks

“Adapt this tutorial activity for dyslexic learners by simplifying language and adding visuals.”

Always review and personalise adaptations for the individual learner.

Creating Lessons from Existing Resources

“Create a 60-minute lesson plan from this (add a document of choice) or type a subject. Include objectives, starter, activities and assessment.”

The better the source context, the more useful the lesson.

Use it to adapt the resources in the tutorial Team, adapting to your prompts.

Building Quizzes with Copilot and Microsoft Forms

1

GENERATE

Questions + answers

2

CHECK

Clarity + alignment

3

TRANSFER

Copy or import

4

BUILD

MCQ • T/F • short answer

SAMPLE PROMPT

Create 10 multiple-choice questions based on the resource attached for Level 1 FE learners. Include four options and mark the correct answer. (use the task you created earlier).

Check every question for clarity and alignment with the learning objectives. Copy the quiz post on to word, save , then access MS forms click import.

More Ways Copilot Supports Tutorial Coaching

1	**COACH**	Questions that surface learner barriers
2	**TARGET**	Specific, measurable actions from concerns
3	**REVIEW**	Reflective activities that evaluate progress
4	**PLAN**	Tutorial notes turned into actionable plans
5	**TRANSCRIBE**	Conversation summaries + learner actions

“Summarise this tutorial coaching conversation and identify actions for the learner.”
