

GOBLIN TOOLS

A SIMPLE AI TOOLKIT FOR TEACHING AND LEARNING SUCCESS

TOOLS INCLUDED:

- Magic ToDo
- Professor
- Estimator
- Compiler
- Formalizer

WHAT IS GOBLIN TOOLS?

Goblin Tools is a collection of simple AI-powered tools designed to help people manage tasks, organise ideas, understand information, and reduce feelings of overwhelm.

It includes tools such as Magic ToDo, Professor, Estimator, Compiler, and Formalizer.

For teaching and learning, it can be a fantastic scaffolding tool because it helps break complex tasks into smaller, manageable steps.

WHAT IS MAGIC TODO?

Magic ToDo is Goblin Tools' most popular feature. You type in a task, and it automatically breaks it down into smaller steps and subtasks.

You can even adjust the "spiciness" level to create more detailed breakdowns if a learner needs additional support.

HOW CAN IT BE USED FOR SCAFFOLDING?

CONSTRUCTION EXAMPLE

TASK:
BUILD A STOP END

WITHOUT SCAFFOLDING:

Build a stop end.

USING MAGIC TODO:

1. Gather tools. ☐
2. Put on PPE. ☐
3. Prepare mortar. ☐
4. Mark out the work area. ☐
5. Lay the first brick. ☐
6. Check level. ☐
7. Lay the second course. ☐
8. Fill joints. ☐
9. Clean excess mortar. ☐
10. Check finished work. ☐

Learners can follow each step independently.

As confidence grows, remove the checklist. This follows the scaffolding process of moving from **support** to **independence**.

GOBLIN TOOLS SCAFFOLDING

1 ENTER THE TASK

2 GENERATE STEPS

3 LEARNER FOLLOWS CHECKLIST

4 REDUCE RELIANCE ON CHECKLIST OVER TIME

This makes Goblin Tools particularly useful for Construction, Engineering and Motor Vehicle Entry 3 to Level 2 learners, where practical tasks need to be broken into clear, achievable stages.

BENEFITS FOR ENTRY 3 AND LEVEL 1 LEARNERS

- Feel overwhelmed by large tasks.
- Have low confidence.
- Need support with organisation and executive functioning.
- Need step-by-step guidance.
- Struggle with literacy.

It effectively acts as a **digital scaffold**, providing support at the start and allowing that support to be **gradually removed** as learners become more competent.

"SCAFFOLD TODAY, INDEPENDENCE TOMORROW."
